TAILOR-MADE
TEAMS WITH
AN EYE FOR DETAIL

Every project presents its own individual requirements, which is why we don't believe in having in-house designers. Instead, we bring together a bespoke project team using our connections to the UK's finest consultants and craftsmen. We can suggest designers, contractors and engineers ideally suited to the needs of your property, before managing every stage from initial design, throughout construction and finishing with an exceptional interior. By working with market leaders, who are pioneers in their respective fields, we can guarantee that the construction of your home remains true to your ideals and every detail is executed beautifully.

A MEETING OF MINDS

The process of selecting your team includes the opportunity to work with a diverse pool of designers. This allows you to ensure you find a designer that you connect with and whose style complements your vision. We also select contractors and sub-contractors for the project, only using those that we know deliver high quality work and have strengths relevant to the needs of your home. We tailor-make a new team for every project, so you can be sure that the experts we provide are perfectly matched to your requirements.

Our service is based on trust, and this extends from the decisions made at every stage of the project right through to costs and confidentiality.
